

We are a highly successful Sales & Management Development Company!

Lead by Tony Armstrong - Recognised in the UK as one of Britain's most dynamic, entrepreneurial and pragmatic business leaders; he has an extensive and enviable record of delivering real measurable improvements in company performance and profitability with clients in your market.

We always deliver a return on your investment!

Make no mistake; this isn't about waving a magic wand at a business development need and expecting to get a quick fix! To be most effective, clients must buy into the fact that it requires commitment on both sides of the partnership to make this happen. But done correctly, BMD Global has proved time and again to get results! And results that can be measured!

We only work with selected clients who work with us and are committed to make it happen!

So why are we writing? Simply put, we have a small number of partnership opportunities to work with some additional client companies during 2008 and we wanted to raise your awareness of the limited availability of this valuable business resource.

So what is so different about BMD Global?.....Its' People!

We never lose sight of the fact that people are the key to success for your business and Tony and his team at BMD Global are highly effective at building 'in company' value activities that directly improve on the bottom line for all client companies.

Call Tony and let's talk! - 01202 570600
